

Laurent Garcia

JavaScript Developer

Dedicated and quick learner with a solid professional background in customer support and copywriting, I recently made a transition in my career due to my long-time interest in technologies and web development. I'm now looking for a new role where I can make the next step in the field of software development and learn from other experienced team members.

WORK EXPERIENCE

Upstream

Copywriter

Athens | April 2017 - current

- Writing clear, persuasive and original messages in a limited space for marketing campaigns aimed at French speaking countries
- Meeting with the account management team to discuss client requirements and background of the campaign
- Creating storylines and ideas, keeping up to date with popular culture and trends

Teleperformance Hellas

Apple Customer Representative

Athens | November 2008 - January 2017

- Addressed French-speaking customers' billing and technical issues by email and phone
- Undertaking cases and ensuring that clients' requests are resolved in a timely manner
- Making sure that every customer has the best possible experience with Apple products and services

PROJECTS
